*Note: pricing and configurations are as of June 1st 2023. These are subject to change and availability.

1. Industrial materials like Mosaic PEEK, PEKK, and PEI 9085 are only available for print on the Array HT configuration. HT upgrades and Print Heads can be purchased individually to upgrade an existing Array. Limitations on print size for these materials apply, please contact sales@mosaicmfg.com to learn more.

2. TPE (Thermoplastic Elastomer) as well as many TPU (Thermoplastic Polyurethane) materials are not recommended for printing in Array

3. Includes a 50/50 split of both Type I and Type II Beds.
